

Applications for the Master of Science program in Business Analytics Tunis Business School, University of Tunis Academic year 2018-2019

Tunis Business School (TBS) informs all interested students to apply for the program of Master of Science in Business Analytics for the academic year 2018-2019. Applications may be received at the secretary office of the graduate program at TBS (Bir Kassaa, près du marché de gros), **starting from August 21st till September 12th, 2018.**

Requirements for applications:

Eligible students to apply for the program are those who

- Hold a bachelor degree (or its equivalent) in any of the business areas, an engineering degree, or licence (BAC +3).
- Are sufficiently fluent in English and carrying official justifications.
- Have a good background in mathematics

Students' selection is made based on their cumulative performance during their undergraduate study.

The offered program is a two year program. However, for **TBS students with major in Business Analytics** or students with engineering degree related program, the program is one year including summer. For TBS students with minor in Business Analytics, the BA courses taken during their undergraduate studies will be valued.

The application file must include the following items:

- A certified copy of the certificate of the Baccalaureate
- A certified copy of the university degree(s)
- A copy of the national ID
- A certified copy of the student grades during his/her undergraduate program
- A CV in English
- A request to join the master program
- 2 ID photos
- Any supporting documents

Important Notes:

- No application file will be considered if incomplete, submitted after the deadline, or mailed through the post-office
- The program capacity for this academic year is 25 students
- Acceptance will be granted only after a thorough verification of the authenticity of the documents and the accuracy of the included information by the specialized Master committee
- Final acceptance of candidate students will be posted on the TBS website
- Accepted students must register within the deadline to be announced later
- The academic year for the Master program starts on October 1st, 2018.
